Tickets can be used on all public urban transport lines of Dopravný podnik Bratislava, on suburban bus lines of Slovak Lines and on Os and REX trains of Železničná spoločnosť Slovensko within the scope of their temporal and geographical validity.

Season tickets for Integrated Transport System of the Bratislava Region are available online only for contactless chip cards issued by ZSSK. Customers can select time validity, territorial zones and validity start day during their purchase. Customers are also asked to provide the ID number of their contactless chip card (10 digits serial number) during the purchase. Passengers will be asked to show their contactless chip cards charged with the season ticket at the ticket inspection.

2. ETD Conditions of Issuance

ZSSK online sales service allows passengers to add ETD IC to their shopping carts.

After closing their shopping cart, customers are asked to fill in the e-mail address where the ticket will be sent (mandatory information) and for each individual travel document it is required that the name and surname of the passenger is given (mandatory data) and if also the registration number is required (mandatory data in case of issuing the zero-fare travel ticket). In the next step, customers are asked to fill in passenger's personal data for each ETD. **Customers are responsible for providing correct and accurate information.**

When obtaining zero-fare tickets online, customers will be asked to provide the zero-fare passenger ID number issued for zero-fare passengers upon their registration for zero-fare travelling. System will issue a zero-fare travel ticket only after a successful validation of the data provided by the customer. If a shopping cart contains zero-fare travel tickets only, customers are prompted to confirm acceptance of Terms and Conditions and delivery method. In a following step, an ETD with zero-fare travel ticket will be generated. **If customers do not receive their zero-fare ETD, they are recommended to contact ZSSK Call Centre on 18 188 (+421 24 48 58 188 from abroad) immediately.** After providing information regarding their ETD, a new ETD will be generated for them and sent to the e-mail address provided in their order form.

When purchasing non-zero fare tickets online, customers will be asked to check their data, select their payment method and to confirm their agreement with the Terms and Conditions by clicking on the confirmation field.

Customers who fail to fill in any mandatory field or to accept the Terms and Conditions will not be allowed to continue their purchase.

In the next step, customers can make their payment using one of the following bank applications: **GP webpay** (an online payment product of Československá obchodná banka for MasterCard, Maestro, VISA and VISA Electron cards); **e Platba VÚB** (product of Všeobecná úverová banka); **TatraPay** (product of Tatra banka) or **SporoPay** (or product of Slovenská sporiteľňa)

Mobile payments can be made only via **GP webpay** with MasterCard, Maestro, VISA and VISA Electron cards.

Customers can cancel their transaction any time before making their payment. After accepting the cancellation, the online sales application will place the reserved seats back to the sales system.

The time limit for closing the shopping cart, filling in the forms and sending a payment request is 30 minutes. After expiration of this time limit, the online sales application will cancel the purchase, place the reserved seats back to the sales system and display a session timeout message.

Passengers wishing to make a seat, couchette berth or sleeping berth reservation are recommended to search the direct train connections only (using the **"Direct Connection"** search parameter) to make sure that the system selects the correct train and coach.
